C Standard Libraries

Documenting different stdlibs I've used and why/why not.

glibc

The norm. I don't want to use it because I don't like GNU.

musl

Nothing to say about it. Alpine uses it so it's probably good.

Fil-C

Not used it. seemed cool but idk. repo has a claude.md file :(

Cosmopolitan C

Seems alright but the author is big into AI :(

Others uclibc - OpenWRT uses it i think newlib - unsure who uses it klibc - Linux kernel i think dietlibc - Unsure who uses it
